# Six Ways to Put Your Logo On

Method	Best for	Feel & durability
Embroidery	Polo chest logos, premium corporate look	Stitched thread — most durable, survives industrial washing
DTG (direct to garment)	Multi-colour designs on cotton	Soft, ink bonds with fabric, no heavy hand-feel
DTF (film transfer)	Sharp small text and logos on any fabric	Vivid colour, good stretch, strong wash resistance
Sublimation	All-over prints, sports polyester	Zero feel — dye becomes part of the fabric
High-density	Raised, bold statement prints	3D texture, premium streetwear finish
Foil	Metallic accents for events & awards	Eye-catching shine, best for occasional-wear pieces

Not sure which suits your logo? Send it over — our design team will recommend the method and share a free digital mockup.
